ETIQUETTE FOR BOWLERS

1. Each bowler has as his obligation the maintenance of the approaches in as nearly perfect condition as possible. Bowling shoes, although not absolutely essentials, are important to the extent that they should not be substituted for with shoes which are likely to leave marks on the runway. Burnt matches, ashes and other refuse should be deposited in suitable receptacles. In no instance should anything of either solid or fluid nature be permitted on the approaches. Good approach conditions can best be maintained by a healthful respect by each bowler for the rights of other bowlers.

2. When bowling one should use either his own ball or one selected from the rack. In no instance should one attempt to use a ball which is being used by another bowler. If one must bowl with a ball which is in use he should wait until the one bowling quits bowling, thereby releasing it for use by others.

3. In both practice and match bowling the bowler on your right should be given the opportunity to bowl first. To grant this opportunity, one should stand far back in a relaxed position.

4. One should strive to win by good bowling on his part rather than poor bowling on the part of the opponent. An expression of this type is the only one which connotes true sportsmanship.
